

Dear COUNTDown

We own a Toyota Corolla T3 Spirit Diesel and before using COUNTDown we averaged 62 m.p.g.

Now with COUNTDown and the current diesel fuel, we are seeing 83.8 mpg!

We telephoned your office as we and friends felt that the m.p.g. must be incorrect. However, we hardly ever need to re-fill whereas before it was approximately monthly.

Delighted we have found out about your product!

Many thanks
